

EUROPORT 2021- THE MARITIME WORLD, TOGETHER, TODAY, TOMORROW

A CHANGING (MARITIME) WORLD

2020 will be remembered as a year of disruption for people and society. The pandemic impact is massive and unprecedented. It transforms economies and social behavior, regulations and business operations. Companies are forced to transform quickly or start new business models. This leads to creativity and innovation, accelerated digitalization, new products and services and restructuring of the playing field. The maritime world is no exception. Our rivers and seas are filled with challenges and opportunities. As a community of pragmatic people, we can face changes and turn them into chances. We invite you to be part of the journey of the maritime transition; to explore the power of technology and transparency. We invite you to engineer, build and maintain sustainable (relation)ships. TOGETHER, TODAY, TOMORROW.

OUR VALUES

Since many decades Europort has been the exhibition and meeting place where the international maritime industry gets together to connect, cooperate and innovate. Now, 80 years in the process, the need to meet face-to-face may be stronger than ever. We are convinced that, in this digital era, personal encounters are indispensable to our industry. Therefore Europort remains dedicated to offer the right platform, driven by our key values:

Craftmanship & Entrepreneurship

On a foundation of years of experience in a country that is closely connected to water, shipbuilding and engineering is in the DNA of Europort. We believe craftmanship and entrepreneurship are essential to achieve the most innovative and durable results. At Europort we are proud to offer you both. It is the place to showcase special purpose ships and high-tech solutions. Europort offers a stage where you can meet the right people of maritime companies from all over the world and across industries.

Thought Leadership & Ownership

Taking the lead in innovation and charting the path to the future is one of Europort's primary ambitions. By exploring innovative and digital solutions that lead to a sustainable future, we can discover the power of technology together. That's why we dare ship owners and cross-industry pioneers to take the stage and share their vision on the road ahead of us. Forward-thinking and relevant themes will be addressed, where you can take advantage of. Think smarter, cleaner, safer and more efficient assets.

Partnership & Friendship

In order to maintain professional partnerships, achieve goals and maximise your ROI, it's important to meet people in real life. That's why Europort 2021 goes beyond just another network opportunity. At Europort we facilitate an inspiring environment to engage with industry peers and create new business opportunities. We make sure you meet the right people, with safety and health being our top priority.
